

**Week 2: Tuesday 20th October 2015**

Prof. Carolin Crawford, Institute of Astronomy, Cambridge  
*Small bodies of the Solar System*

**Week 3: Tuesday 27th October 2015**

Prof. Richard McMahon, Institute of Astronomy, Cambridge  
*Recent results from the Dark Energy Survey*

**Week 4: Monday 2nd November 2015**

Prof. Roberto Maiolino, Kavli Institute for Cosmology, Cambridge  
*Why Galaxies die?*

**Week 5: Monday 9th November 2015**

Dr Stefano Camera, Jodrell Bank Centre for Astrophysics  
*Gravitational Lenses and Gamma-Ray Light to Reveal Dark Matter Particles*

**Week 6: Tuesday 17th November 2015**

Dr. Emma Woodfield, British Antarctic Survey, Space Weather and Atmosphere Team  
*Title: To Be Announced*

**Week 7: Tuesday 24th November 2015**

Dr Jean-François Robitaille, Jodrell Bank Centre for Astrophysics  
*Chasing turbulence in the Galactic magnetic field with wavelets*

**Week 8: Tuesday 1st December**

Prof. Paul Hewett, Institute of Astronomy, Cambridge  
*The Galaxy Quasar Connection*

All speaker events **begin at 7:30 pm in Wolfson Lecture Theatre,**  
Department of Chemistry, Lensfield Road(CB2 1EW)

These events are **free to all CUAS Members**. Follow CUAS on FB and the Society's website
